***DETAILED ACTION***

1. In response to the communication dated 02/25/2008, claims 26-55 are active in this application as the result of the cancellation of claims 56-72, and in the condition for allowance. The reason for allowance was stated in the previous office action and is reinstated herein below.

***Examiner's Amendment***

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Gordon R. Lindeen, Reg. No. 33,192 on May 08, 2008.

The application has been amended as follows:

37. (currently amended): A ~~machine computer-readable memory~~ medium having stored thereon data representing instructions which, when executed by a computer, cause the computer to perform operations comprising:

monitoring usage of a web browser of a computer by a computer user during a usage session;

recording information at the computer including hypertext links selected by the user during the monitored session;

analyzing the recorded hypertext links at the computer to determine a user interest for the session;

automatically generating a search engine query by the computer based on the determined interest;

transmitting the generated search engine query from the computer to at least one remote web site to query the at least one remote web site; and

receiving query results at the computer from the at least one remote web site based on the query.

43 (Cancelled)

44 (Cancelled)

45 (currently amended): The ~~agent of claim 43~~ system of claim 51, wherein the activity monitor determines the user interest based on the content of the hypertext links using heuristics.

46 (cancelled)

47. (currently amended) The ~~agent of claim 43~~ system of claim 51, wherein the activity monitor comprises category profiles stored at the computer system and determines a shift in the user interest by comparing recorded information to the stored category profiles.

48 (cancelled)

49. (currently amended) The ~~agent of claim 43~~ system of claim 51, wherein the query engine constructs queries to perform searches using search engines on a plurality of web sites based on the user interest, and transmits the queries to the plurality of web sites.

50 (cancelled)

**Allowable subject matter**

3. The following is an examiner's statement of reason for allowance:

As stated in the previous office action, based on the Applicant's arguments in the Appeal brief dated 10/09/2007, claims 26-42, 45, 47, 49 and 51-55 are allowed over Haitsuka and Davis references.

None of the references of record Haitsuka (US 6,505,201) and Davis (US 6,269,361) teaches or suggests the claimed (Claims 26, 37 and 51) invention having, in addition to the other limitations in the claims, the limitation of automatically generating a search engine query by the computer based on the determined interest wherein the determined interest is determined by analyzing the recorded hypertext links selected by the user during monitored usage session.

Dependent claims are allowable because they depend from base claim.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".

***Conclusion***
